

'Computer Simulation' (fall 2014) the Project Presentation - Evaluation Form

(December 2nd, 2014)

Date: _____(yyyy/mm/dd)

Your Team Name (No.): _____ Speaker's Team Name (No.): _____

Scale from 1 (very poor) to 10 (Excellent) regarding each item. If you have any additional comment then, you can add your opinion under "Comment". Otherwise, write N/A.

	Item	Scale (1~10)	Comment
Contents	Problem Description & Objective		What is the problem of your system? What is the main objective of the project?
	Modeling		How do they model the system? Is there any assumption?
	Performance Analysis		Do they derive meaningful results? Do they analyze the system properly?
	Contribution		What is the main contribution? Does it have any impact?
	Creativity		How do they solve the problem? Is it new or traditional?
	Feasibility		Can we apply the solution in the real system? (Or just unrealistic?)
Presentation	Time (15min – 20min)		Do they use a limited time properly? Too short? Or Too long?
	Attitude & Voice		Do they Just read the script? Or understand and present it with eye contacts, gestures, and proper volume of the voice?
	Slides		Is the ppt file made properly? Is it clear to understand?
	Q&A		Do they answer the question properly? Any difficulties to answer?
